

Dear Friends of New Neighborhoods,

At New Neighborhoods Inc, we have been building hope and opportunity through development and management of quality and affordable housing and resident-centered services for 55 years.

In our efforts to preserve affordable housing, we have recently acquired four properties with a total of 224 units located in New Milford, Newington and Bridgeport, Connecticut. These four properties were originally developed and owned by the Women's Institute of Housing and Economic Development (WIHED) before they exited the business.

In June, we are hosting three Open House events, one each in New Milford, Newington, and Bridgeport, and inviting you to join us for food, refreshments, and celebration of New Neighborhoods acquisition, preservation, and management of these affordable housing units.
